123 Anywhere St., Any City

## Language

- English
- Urdu

## Expertise

- Management Skills
- Creativity
- Problem solving
- Negotiation
- Critical Thinking
- Graphics

## Experience

I have a solid foundation in computer science, with specialized knowledge in Object-Oriented Programming (OOP) and Data Structures. I am proficient in Web Programming using JavaScript, and have developed a deep understanding of Operating Systems, Computer Networks, and the application of Python in Artificial Intelligence (AI). Additionally, my skills in Assembly Language further complement my ability to understand and manipulate low-level system operations."

## Education

**FAST University**  
computer Science  
2021 - 2025

Punjab college  
2019-2021

Bloom field Hall school

## Skills Summary

- Proficient in Object-Oriented Programming (OOP)
- Experienced with Data Structures
- Skilled in Assembly Language
- Knowledgeable in Web Programming with JavaScript.
- Understand Operating Systems principles
- Competent in Python for Artificial Intelligence (AI) applications
- Familiar with Computer Networks
